

Mass Save wants to tell residents of Massachusetts that heat pumps are the most effective and sustainable option when it comes to heating and cooling their homes.

So, when we were asked to communicate that with an out of home campaign, we made a series of photographs featuring moments beneath the heat pump, creating juxtapositions between the qualities of the heat pumps and those who benefit from it.

QUIET

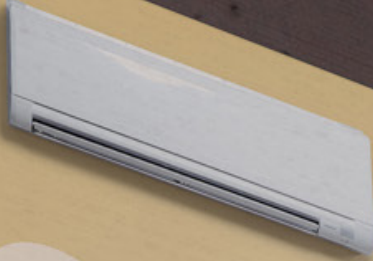

HEAT PUMPS keep your home or business
warm and cool without making a sound.

COMFY

HEAT PUMPS

give you comfort year-round,
no matter what size couch you find yourself on.
