

Musack

The power of imagination is left un-tapped in young people around the world. The anxiety and loneliness of adolescence, coupled with outside obstacles like poverty, drugs, and crime can stifle the development of creativity that kids everywhere should be enjoying. This concept seeks to showcase the creativity that lies within young people in an inspiring way, mirroring Musack's mission to give kids and teens a voice through music. Through these album covers we can catch the attention of prospective donors and drive them to Musack's website where they can learn more about the organization and donate.
