

The Office of Undergraduate Research (OUR) is a resource for all undergraduates in all majors on all UConn campuses seeking to enrich their undergraduate experiences through participation in research, scholarship, and creative activity.

Microplastics are Everywhere

Rebha Raviraj '22 (CLAS) was awarded a Summer Undergraduate Research Fund (SURF) Grant to track microplastics along two major rivers in Connecticut to see how the dynamic of microplastics changes over time.

Puppetry Photography: Overcoming Loneliness

UConn Puppetry Arts Major, Elise Vanase '21 (SFA), had to adapt her senior IDEA grant-funded senior puppetry project due to COVID-19 limitations and challenges. But that didn't stop her from developing her idea into a puppetry photography project.

Youth Environmental Conservation & Action

A group of UConn students were awarded an IDEA Grant to spend their summer creating a short documentary film and photography project that focuses on youth environmental conservation and action throughout the Northeastern United States.
