# GRIT + POLISH

The building industry is not for the faint of heart. The people who choose to do this work say yes to the impossible and exude a toughness of character in their relentless pursuit of excellence.

We are grateful to know these characters and to celebrate the work we have accomplished together as kindred spirits and gracious partners—all in service to our amazing clients.

We appreciate you.

## CONSIDERING EVERY ASPECT

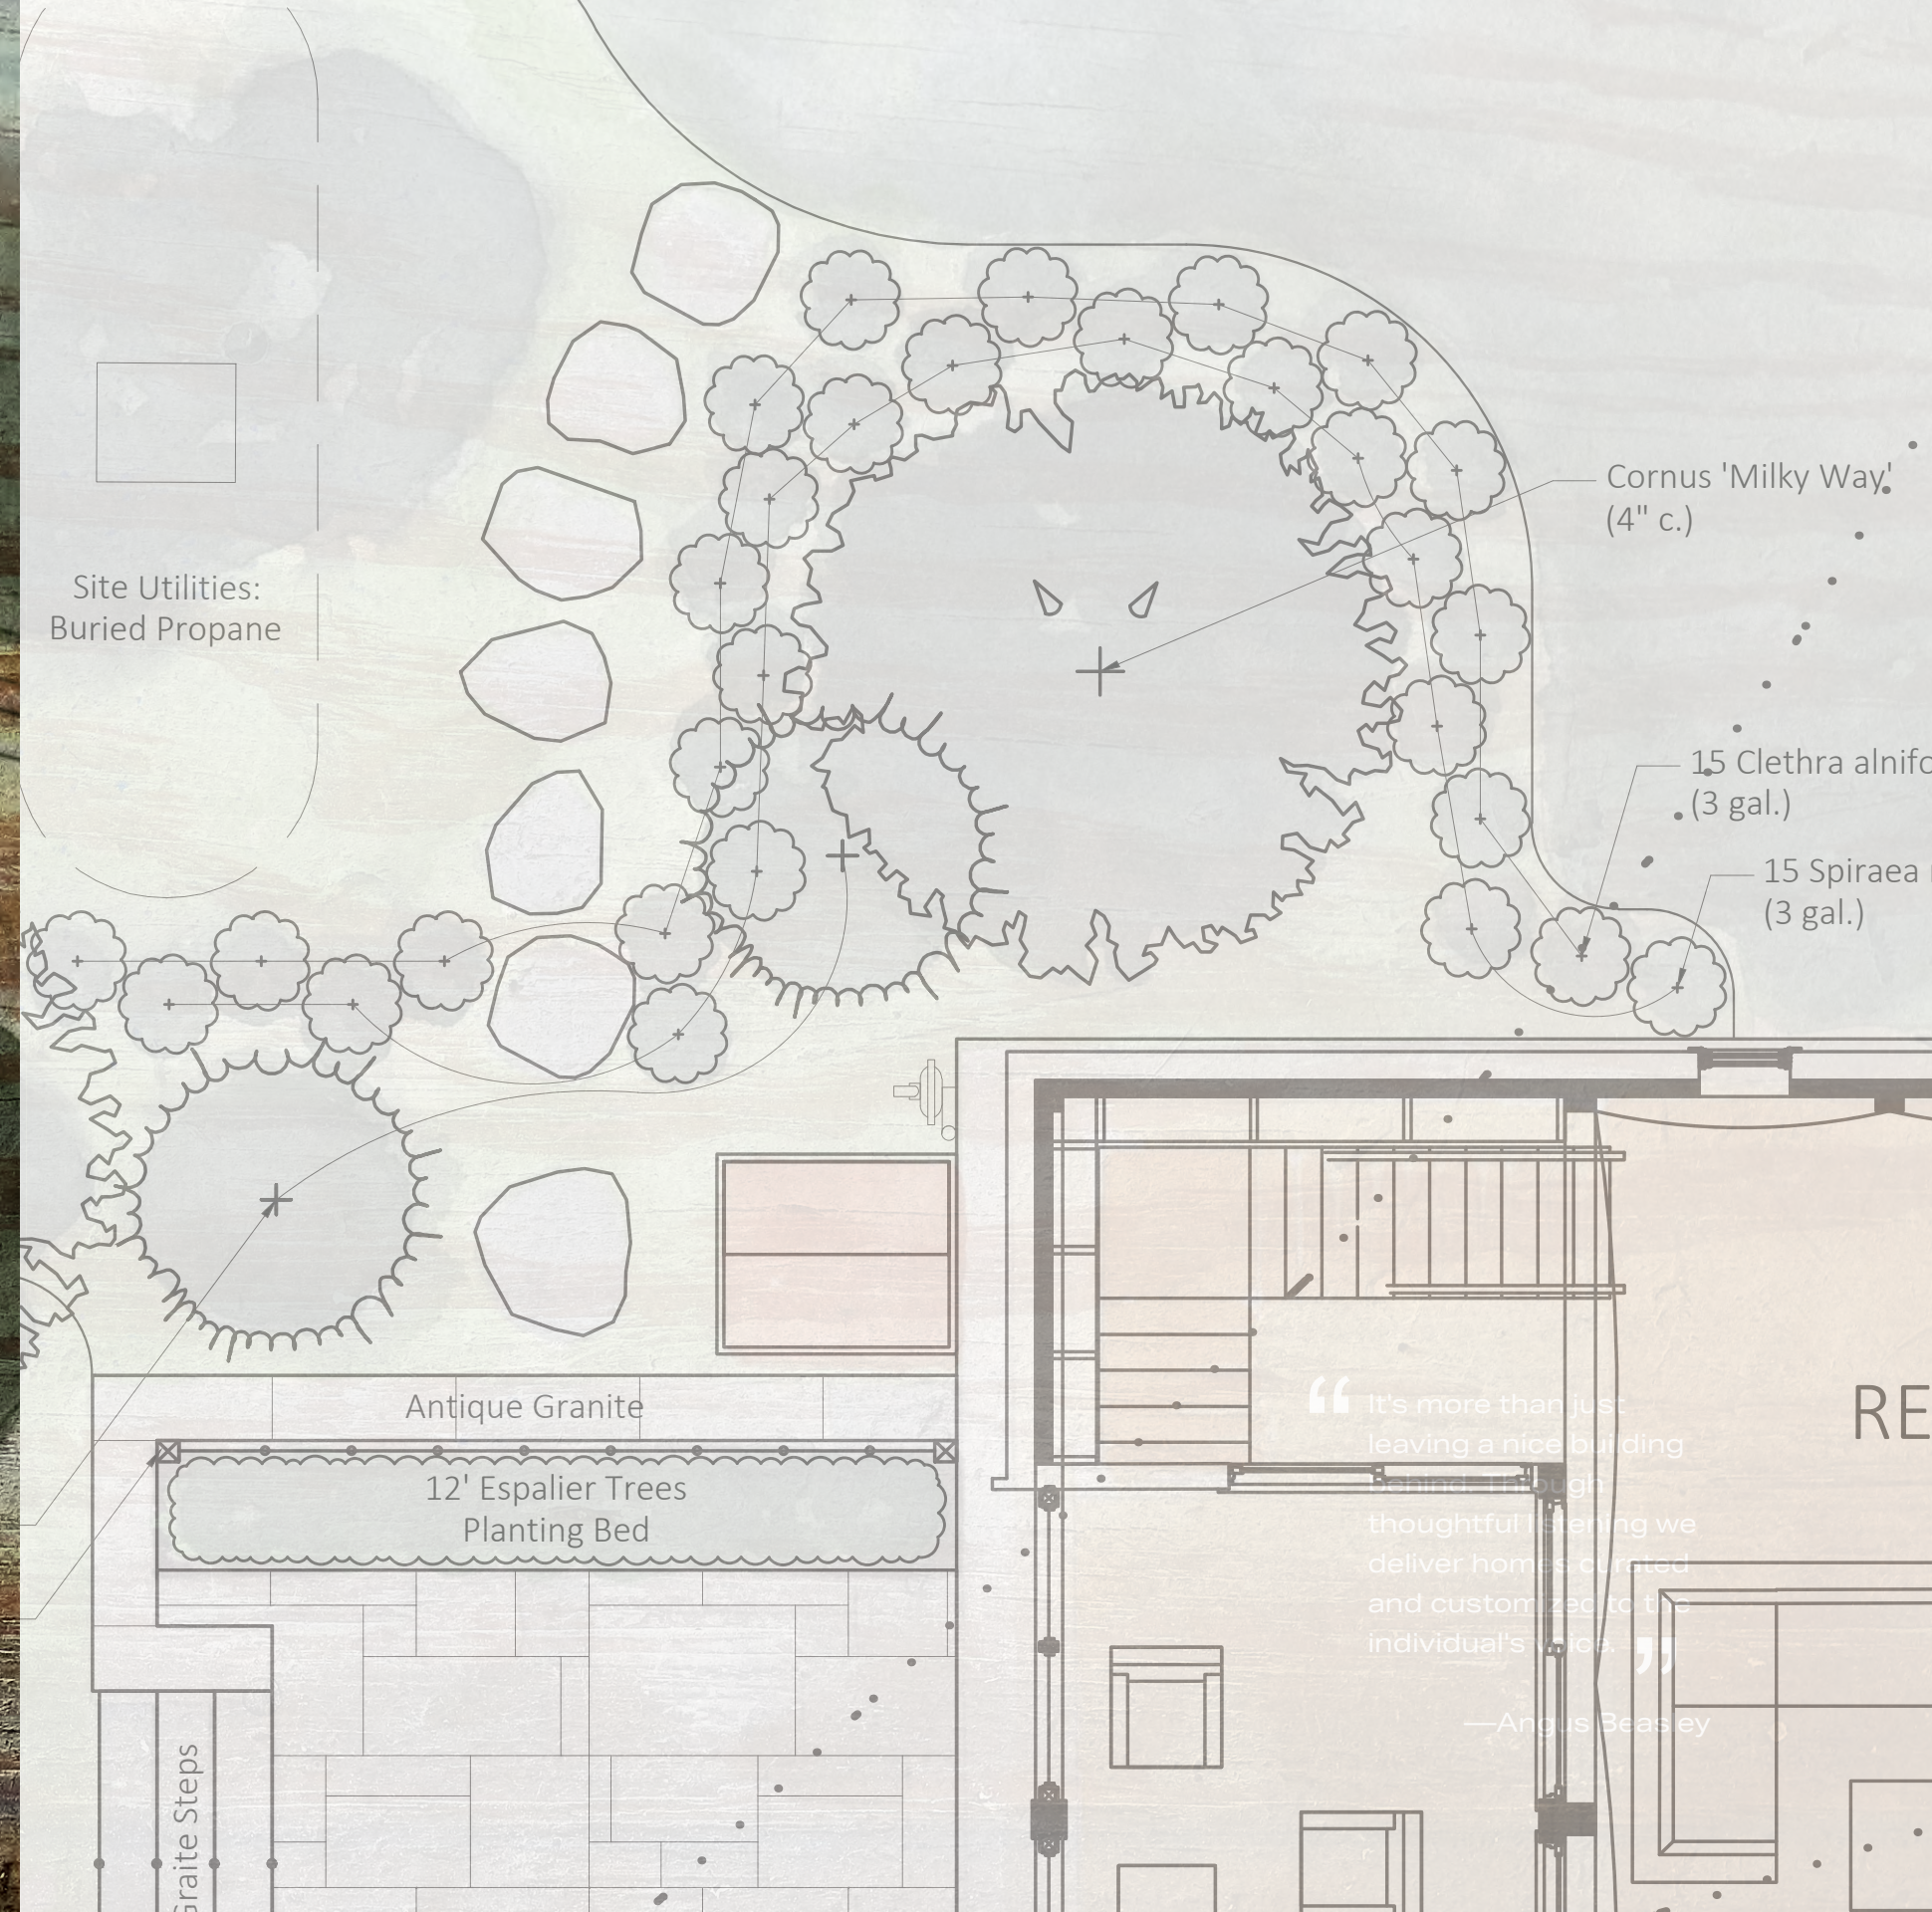

Grand gestures, common courtesies, and deep thought to even the smallest details all add up to enduring trust.

# The care of customization

When every element is  
crafted to your vision, and  
your personality shines  
through every feature,  
you truly feel at home.

# A HOME IN HARMONY WITH NATURE AND YOUR S

“ Immediately we connected well in terms of the vision. I was looking for someone with a sense of ownership and pride. That’s what all of you at Adams + Beasley are about. Even working with the crew, you own the product, take pride in it and you want your name on it. ”

—Philippe Lam

The design philosophy of this construction focused primarily on function and simplicity. Following this path resulted in a beautiful home that is environmentally friendly, efficient, and low maintenance but also imbued with individuality.
