Have you ever listened to a song and felt like it totally changed how you were feeling? You're not just imagining that music can change your mood—it's scientifically proven!

START ACTIVITY

To get started, make yourself comfortable. You can lie down or sit in a comfy chair. Let your body totally relax and gently close your eyes if it feels right. Relax your face and unclench your jaw—it

CALM PALM

This is a... body h... you
