

# Memory Land

A Community-based application for Dementia families

Spring 2023 | DMD 5035

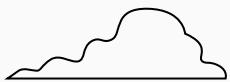

# Dementia!

Dementia is not a specific disease but is rather a general term for the impaired ability to remember, think, or make decisions that interferes with doing everyday activities.

+ **Create a community for  
Dementia caregivers and  
families!**

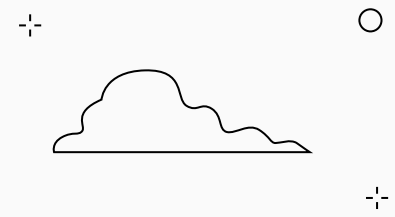

+  
o

01.

# Caregivers

This application aims to create a community for caregivers where they can connect with each other and have their own free time and ask their own questions.

# UI Design - Features

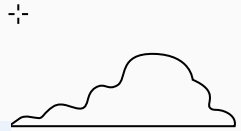

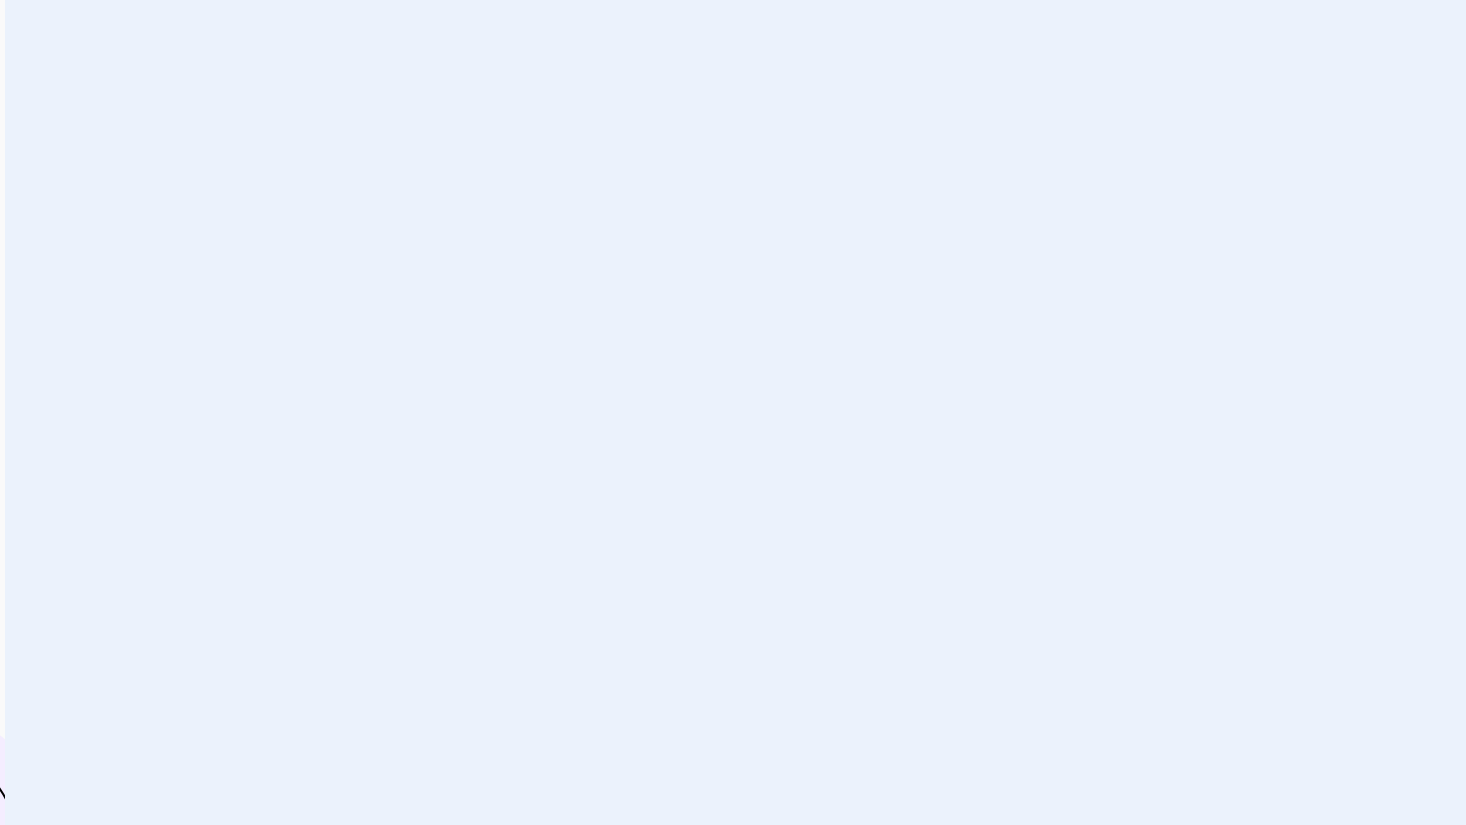

# Prototype

# Promo Video

The background features a large, light purple organic shape in the center. Above it are two simple line-art clouds. To the right, there is a smaller, darker purple circle. The overall design is minimalist and modern, with scattered geometric symbols like plus signs and circles.

# THANK YOU!
