

Transformative Justice Calendar

All proceeds raised through the sale of the calendar will support REBUILD, a free service which connects formerly incarcerated individuals of color to a therapist.

The theme of the calendar is transformative justice. Transformative justice is an overarching framework (that includes specific ideologies, values, strategies, practices) which has at its core the idea that we can't end violence with violence. It seeks to prevent, intervene in, and transform harm and violence through nonpunitive accountability.
