CORPORATE DESIGN | LOGO DESIGN CT Department of Transportation

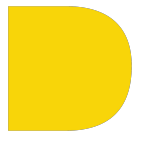

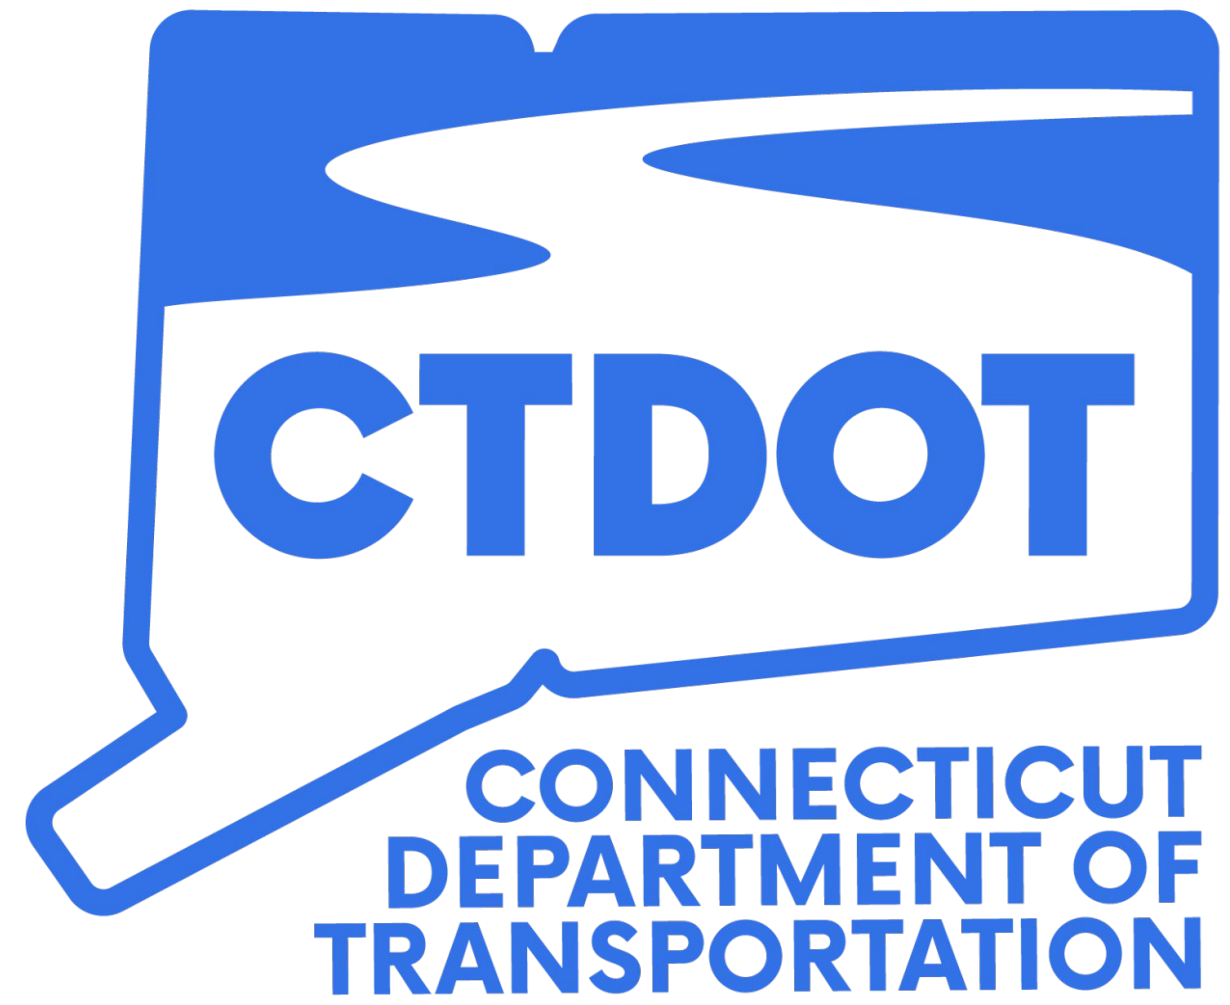

Our state and the people who live here are why we continue to push forward and improve lives. We're reminded that the CTDOT is an intrinsic part of the the state, playing a crucial role in developing a brighter future. Our logo is our continued reminder of that responsibility.

This system marries the CTDOT with the outline of Connecticut to double-down on the role the CTDOT plays as a means of connecting all of Connecticut.

IN THE WORKS:

WALK Bridge Replacement Project

WHY NOW?

The WALK Bridge needs to be replaced immediately, not five or 25 years from now, and it's legally required that the replacement bridge allows for river navigation.

One of the oldest movable bridges on the Northeast Corridor, the 127-year-old four-span swing bridge has outlived its lifespan.

The 564-foot-long WALK Bridge has been subject to continued operational failures and is vulnerable to damage from harsh weather conditions and requires replacement.

THANK YOU.

Improving Lives Through Transportation
