Hits all the notes, dark dystopian society, risky escape, song cover with a genre change, that's how you sell juice people.

Whoever made this commercial deserves a raise. I skip 99% of ads and this one managed to get watched all the way thru the first time I ever see it....which was 2 minutes ago. Awesome job.

How dare they? I'm invested in an anthropomorphized plastic cup with ice in a cyberpunk dystopia.

Or a .. sodapunk dystopia hahah
