

Track 2

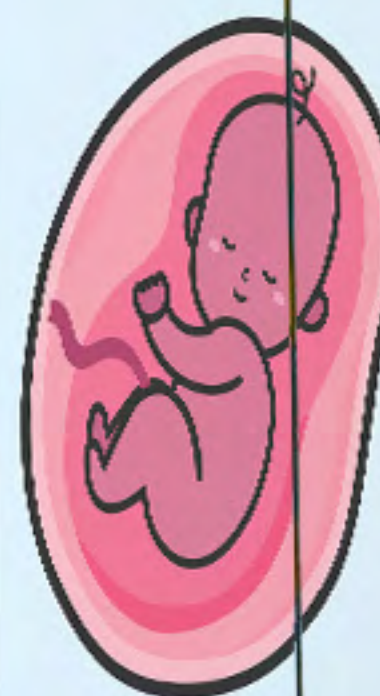

Gastroenterology
Our team of gastroenterologists and psychologists crafts custom treatment plans addressing the gut-brain interaction.

100% kids

Research
We're pioneering clinical trials and pushing for the next breakthrough—like the new IBD treatment we're developing!

Fetal Care
We treat babies before they're born in the only truly comprehensive fetal care center in New England.

Hematology/Oncology
Our nationally renowned researchers are revolutionizing new discoveries, like personalized treatment based on your DNA.

Marcus
3 minutes old
and off to the NICU.
2 successful surgeries.

His esophagus was separated in two,
so we made it one.

Learn More
connecticutchildrens.org/westport

Carter
2" teeny-tiny baby heart.
3/4" hole.

The hole kept growing. So we made
his heart whole with a special patch.

Amila
1 illness after another.
1 medical mystery solved.

We found and fixed the gap in her airway.
Now she's breathing easy.

Ava
16 years old.
1 life-threatening accident.

She broke her neck.
We saved her life, and now she's unstoppable.
